

Fond ext - Gabarit 2

Distance gabarit - gorge 2 mm

Pour guide 12 mm, fraise 8 mm

The image shows a technical drawing of a curved profile, likely a cross-section of a part. The profile is defined by a smooth, continuous curve that starts at the top left, curves downwards and to the right, and then curves back towards the left at the bottom. A dimension line is drawn parallel to the curve, with a leader line pointing to it. The dimension is labeled as -3 mm (d=2 mm). The drawing is enclosed in a rectangular frame.

-3 mm (d=2 mm)
